The Center of Expertise was established as a result of mutual cooperation between: Kosovo Dairy Industry Association, UMIB, respectively the Faculty of Food Technology, Van Hall Larenstein University (Netherlands) and Yuniko Organization (Netherlands).

The first objective of this center is to facilitate the Kosovo Dairy Industry Association to become more sustainable and competitive. Its focus is on the challenges related to:

1. Treatment of discharge water from dairies.
2. Improving production processes.
3. Energy efficiency.

The second objective of the center is to establish a cooperation link between the dairy sector of Kosovo and the European sector through:

1. Liaison with organizations from EU countries.
2. Participation in EU and local projects.
