## **Curriculum - Study Program: Preschool Education 2017-2021**

### **Expected learning outcomes:**

**With the successful completion of the studies in Primary Education, it is expected that students fulfill the main aims of the program, through expected results individually:**

**• Gain a solid basis of knowledge in education. i.e. to:**

- absorb theories, concepts, principles, prospects, perspectives, and new trends theories of learning and development of children, to create environments that are healthy, respectful, supportive, and challenging for all children. to demonstrate and argue the changing nature of psychological knowledge;
- develop the knowledge, skills, understanding and appreciation of the importance of close cooperation with families and communities in order to create respectful, mutually supporting and empowering families and involve them in the development and learning of their children.
- provide children with disabilities to develop a sense of connection and belonging to the children and other adults, to resolve conflicts and solve the challenges they face. Develop critical thinking
  - analyze advanced education knowledge,
  - demonstrate skills and abilities to solve complex unpredictable problems in the field of study; understand the scientific method and its main concepts (i.e. Reliability, validity, operational definitions)
  - draft and develop seminar work, research works, by using different methodology
  - in compliance with professional standards, to provide the ethical treatment of the participants in surveys. Develop professional communication skills.
    - communicate in a clear way in all standard professional ways (oral presentations, research posters)
    - summarize and synthesize education literature
    - communicate research results in a clear way, by using both words and numbers
    - find proper information in hard copy or electronic resources, assessing the reliability of the sources (i.e. Peer review vs. Non-peer review)
    - present ethical behavior in all aspects of science and practice (i.e. Avoiding plagiarism and conflicts of interest) apply knowledge in an effective way
    - be able to apply education principles in everyday life
    - consult with other professional when appropriate
- be able to articulate how principals can be used to address social issues and to inform the public policies in a multicultural global context.

## Curriculum - Study Program: Preschool Education 2017-2021

### Year I / Semester I

Course No.	Stat.	Course name	L	E	ECT S
Edu 0101	O	Theory of Education	3	1	5
Edu 0102	O	Introduction to Psychology	3	1	5
Edu 0103	O	Introduction to preschool pedagogy	3	1	5
Edu 0104	O	Albanian language I	3	1	5
