“ISA BOLETINI” MITROVICË**

Invitation XIXth Balkan Congress of Mineral Processing - BMPC 2023

The Scientific Committee of the Balkan Congress of Mineral Processing and the Organizing Committee of XIXth Balkan Congress of Mineral Processing, most cordially invite scientists, research scholars, specialists and managers of mineral processing from the whole Balkan region, Europe and at large to participate in the Congress: “Mineral Processing in the Global Challenge”. **The Congress will be held from 28 - 31 of May 2023, in Mitrovica, Republic of Kosovo (www.bmpc-2023.net).** University "Isa Boletini" of Mitrovica - Faculty of Geosciences in cooperation with the Institut of Mineral Processing and Tailings, Energy and Environment (IMPTEE) will organize XIXth Balkan Congress of Mineral Processing. This Congress is being held for the first time in the Republic of Kosovo.

Congress participants will present scientific papers, establish contacts with new and reputable colleagues, will share interesting experiences on the innovative processing technologies of useful minerals, application of results from scientific research in industry and the role that Mineral Processing plays in the economy of Balkan and other countries in the world.

The Congress also provides opportunities for mining and processing companies, to present and promote methodologies, exploitation of the mineral resource and new technologies of mineral treatment and processing.

Your participation and contribution to this Congress is welcome and highly appreciated.

Best regards,

President of BMPC Scientific Committee
Prof. Dr. Güven ONAL
