

Prof. Dr. Güven ONAL

(President of BMPC int. Scientific Committee)

Prof. Dr. Naser Peci & Dr. Habib Basholli

(Co-Chairs of Executive Committee)

Language

All papers will be presented in English, however simultaneous translation in Albanian will be provided.

Registration fees

Congress participants	300€
Authors	250€
Promoters	150€/m2
Doctoral candidates	100€
Students	100€
Accompany	150€
Paper publications.	50€

All registration fees include ,
Accommodation (bed & breakfast), Lunches
& Dinner & Wellcome Coctail & Gala
Dinner & Coffee Breaks & Congress
Materials

IMPORTANT DATES

Submission of abstract

15 March, 2023

Acceptance of abstract

30 March, 2023

Submission of Full Paper

30 April, 2023

Balkan Mineral Processing Congress

BMPC 2023

Web: www.bmpc-2023.net

E-Mail: info@bmpc-2023.net

AIM OF THE CONGRESS

The Scientific Committee of the Balkan Congress of Mineral Processing and the Organizing Committee of XIXth Balkan Congress of Mineral Processing, most cordially invite scientists, research scholars, specialists and managers of mineral processing from the whole Balkan region, Europe and at large to participate in the Congress: “Mineral Processing in the Global Challenge”. The Congress will be held from 29-th to 30-th of May 2023, in Mitrovica town , Kosovo. Congress participants will present scientific papers, establish contacts with new and reputable colleagues, will share interesting experiences on the innovative processing technologies of useful minerals, application of results from scientific research in industry and the role that Mineral Processing plays in the economy of Balkan and other countries in the world. Likewise, they will have the opportunity to be acquainted with the experience and Kosovo reality in the area of Mineral Processing in the Pb-Zn deposits of Trepça, Ni-silicate deposits of Çikatovë and Gllavicë, coal deposits Sibovc, with the touristic values of Cristal museum – Trepça as well as the ancient historic heritage of towns of Mitrovica, Prishtina, Prizren, Ulpiana and Artana

CONGRESS VENUE

University «ISA BOLETINI»
Mitrovicë, Republic of Kosovo

CONGRESS TOPICS

- ✓ topics of the congress
- ✓ New technologies of mineral processing
- ✓ Contemporary designing of the enrichment process
- ✓ Modeling, optimization and control of mineral processes
- ✓ Crushing: grinding, milling (SAG, AG, HPGR)
- ✓ Sifting and classification of minerals
- ✓ Flotation: basics, reagents and industrial applications;
- ✓ Re-treatment of industrial waste, especially tailings retreatment
- ✓ Processing of ores of non-ferrous metals and precious metals
- ✓ Processing of precious metals (Gold, Silver, Platinum group, diamond etc.)
- ✓ Processing of industrial minerals and electronic waste;
- ✓ Flotation, surface chemistry and new reagents
- ✓ Flotation plant operations and management
- ✓ Economics of mineral enrichment and material recycling
- ✓ Automatic control, expert systems and data analysis
- ✓ In-process sampling and in-process analysis interpretation
- ✓ Process performances: breaking, crushing, grinding, flotation, leaching, sedimentation
- ✓ Chemical stability of tailings and mining waste;
- ✓ Software applicable to modern flotation processes;
- ✓ Other aspects of interest for the development of the processing of minerals in flotation;
